Computer Operator
Completed in 2022
- 12th CBSE
Commerce
Completed in March 2021

About Me

I am a passionate BCA student with a strong focus on frontend development. With two years of experience working from home, I've dedicated myself to mastering HTML, CSS, and JavaScript. I've also embraced React for creating dynamic user interfaces and harnessed Bootstrap to enhance responsive designs. Proficient in Git, I ensure efficient collaboration and version control. Eager to bring these skills to projects that demand intuitive user experiences and modern design.
